PROFESSIONAL SUMMARY

Senior Product Designer with over 6 years of experience specializing in building and scaling complex digital products across mobile and web platforms for high-impact sectors including fintech, insurance, and e-commerce. Expert in architecting robust design systems, optimizing cross-functional workflows (Design-to-Engineering), and strategically integrating AI tools to maximize delivery speed. Combines an analytical mindset to translate research into clean, intuitive interfaces, driving measurable impact for both end-user experiences and enterprise internal tools.

WORK EXPERIENCE

Bambu Tech Services

Mexico City (Hybrid)

Senior Product Designer

Feb 2021 – Present

- Spearheaded the adoption of AI-assisted workflows within the design team, reducing time spent on repetitive tasks by over 30% and accelerating operational delivery cycles.
- Overhauled the technical handoff process, drastically reducing friction and strengthening direct communication between design and engineering; also serve as a technical anchor and mentor within the team, ensuring UX maturity and operational efficiency across multiple initiatives.
- Delivered end-to-end Product Design processes across 20+ projects for 12+ clients in the fintech, insurance, and e-commerce sectors, including mobile apps, e-commerce platforms, and marketing sites for enterprise and government initiatives.
- Led and contributed to projects in regulated sectors such as insurance and fintech: as an embedded designer at GNP, one of Mexico's leading insurance carriers, on projects including Commercial Management (Gestor Comercial), Client Portal, and the Treasury & Payments Model; as well as the redesign of the Afore Movil app, improving voluntary savings management and adoption for users.
- Established and maintained a company-wide design system grounded in user research, usability testing, and heuristic evaluations, increasing visual consistency and enabling faster iteration across all products.
- Led client presentations, translating complex design decisions into clear business arguments for stakeholders.

A-Marketing

Toluca, Mexico

Senior Graphic Designer

Oct 2019 – Feb 2021

- Drove the visual and conceptual strategy for 20+ interactive projects, ensuring quality standards and timely delivery for web design solutions.
- Led the company's digital rebranding, unifying the visual identity and ecosystem across all platforms and user touchpoints.
- Designed and deployed web structures optimized for conversion (CRO) and user engagement, reducing production timelines by 25% through the creation of reusable UI components.
- Built comprehensive brand identities from scratch for clients across multiple industries, managing the process from discovery to final visual system.

Souk Mercadotecnia y Comunicación

Metepec, Mexico

Jr Designer

Dec 2018 – Aug 2019

- Designed brand identities and visual assets tailored to different market segments.
- Conducted market research to inform creative strategy and visual positioning.
